

**The Right Cooling ..... At All Times**

Refrigeration Solutions, Services & Parts

## Innovative Refrigeration:

Innovative Refrigeration is a refrigeration engineering firm serving the Middle East region, through Jordan and UAE based offices, gathering vast knowledge and experience in commercial & industrial refrigeration fields, gained through working with the world's leaders in this industry.

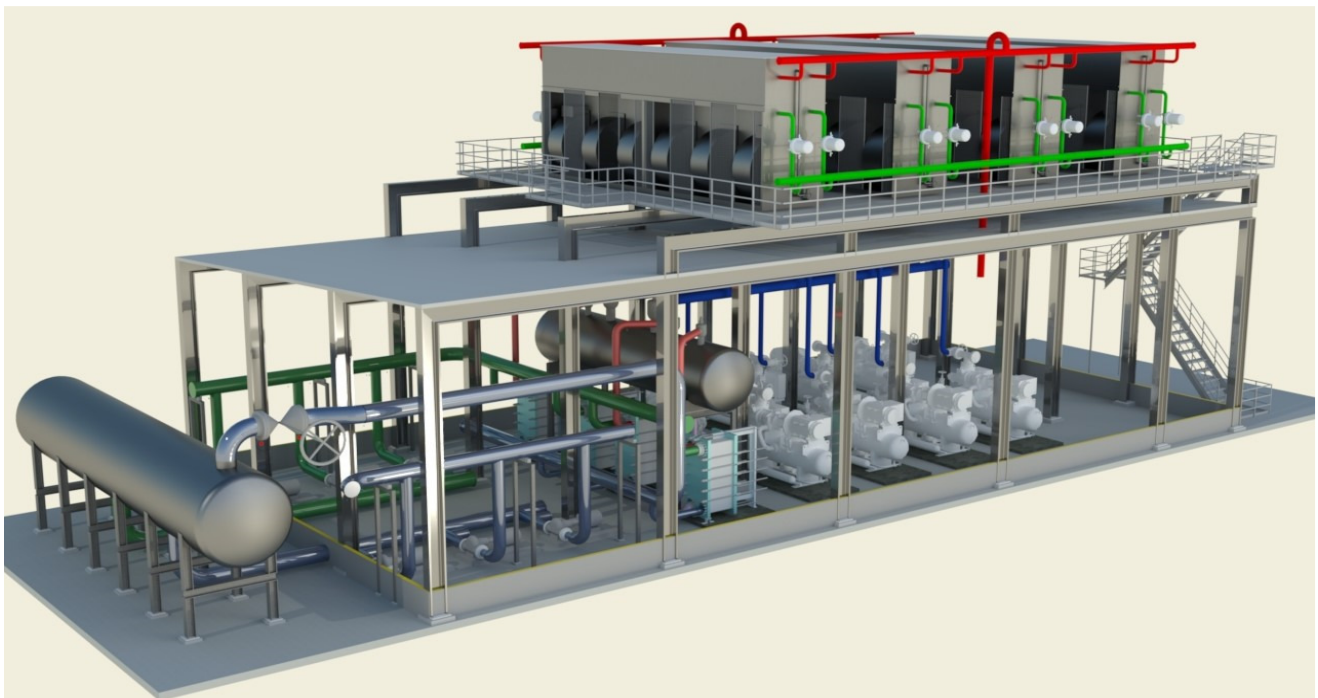

We offer complete refrigeration systems, services & spare parts to our clients.

Our aim is to develop and maintain long term customer partnerships based on trust, an understanding of specific needs and the delivery of solutions that help to secure a profitable business.

Innovative Refrigeration is the partner to trust with your refrigeration needs. Our engineers & partners are refrigeration specialists and guarantee high quality solutions, by offering in house engineering for the most complex systems, with energy efficiency at the forefront of our goals, when designing a bespoke solution.

### IR Vision:

INNOVATIVE REFRIGERATION to be one of the market leaders of refrigeration industry in the middle east region.

### IR Mission:

Perfection and precision shape our business, efficiency and reliability are our way of thinking. With specialist skills and lots of passion, we provide tailored solutions in the refrigeration industry, and in this way, fulfil our responsibility to our clients.

### IR Values:

- Integrity
- Engineering Perfection
- Customer Satisfaction
- Commitment
- Sustainability

### Food Industries we serve:

Because each industry has different requirements regarding its cooling needs, Innovative Refrigeration engineers provide custom-built designs for each client in the following industries:

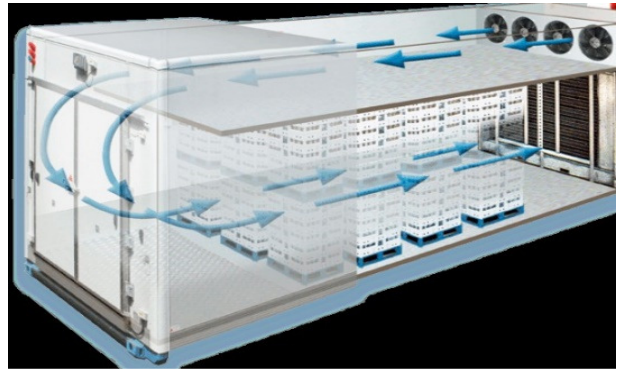

- **Beverage, Juice & mineral water**
- **Fisheries**
- **Dairy Industry**
- **Meat & Poultry**
- **Fruits & Vegetables**
- **Ice Cream**
- **Hypermarkets**
- **Ice Factories**
- **Multi-Purpose Cold Stores**
- **Bakeries**

## Refrigeration Applications

- Blast Freezers / Chillers
- Spiral & IQF Freezers
- Food / Beverage Processing Cooling
- Cold Storage
- Pre-cooling
- Special A/C systems

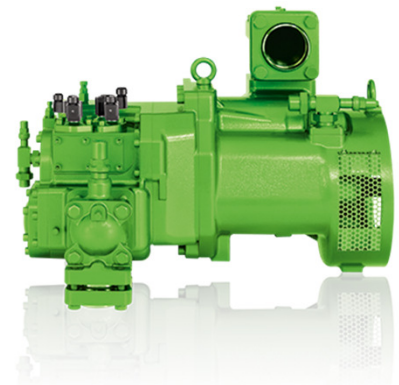

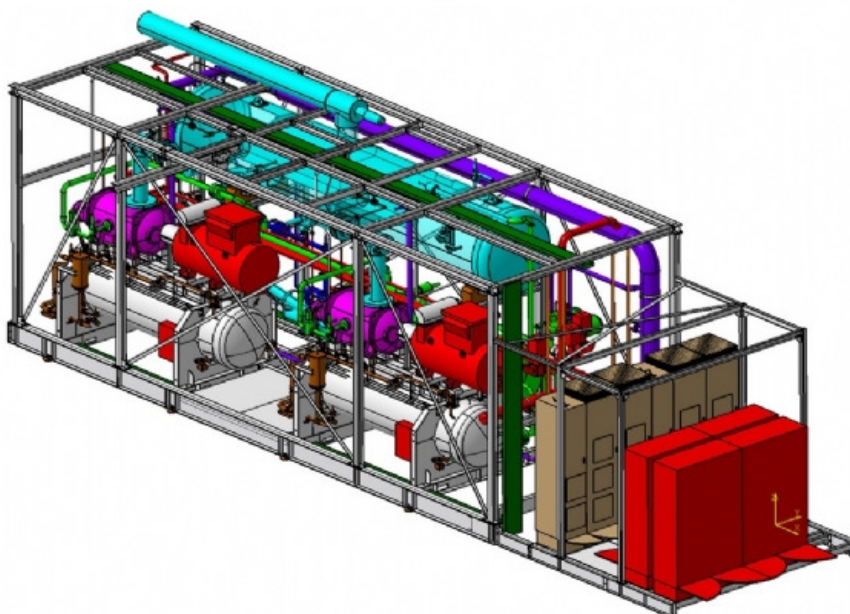

Customer satisfaction is our first priority; we partner with clients to find the refrigeration solution that best fits application processes; and that is as efficient as possible for long-term savings in costs and resources. In addition, our services are provided to help spare personal energy resources, so that clients can give full attention to their core business.

## Refrigeration Equipment:

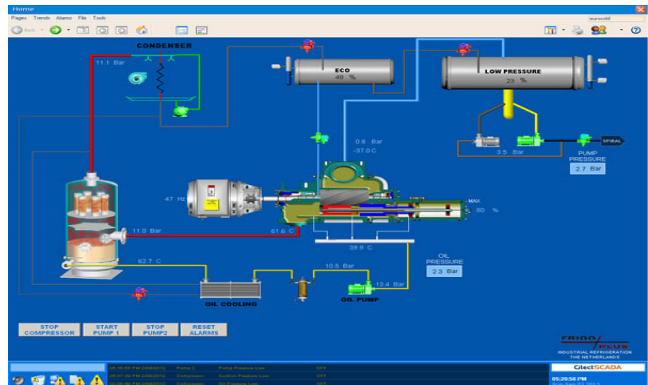

Standard & custom designed refrigeration equipment work on Freon & Ammonia refrigerant, such as:

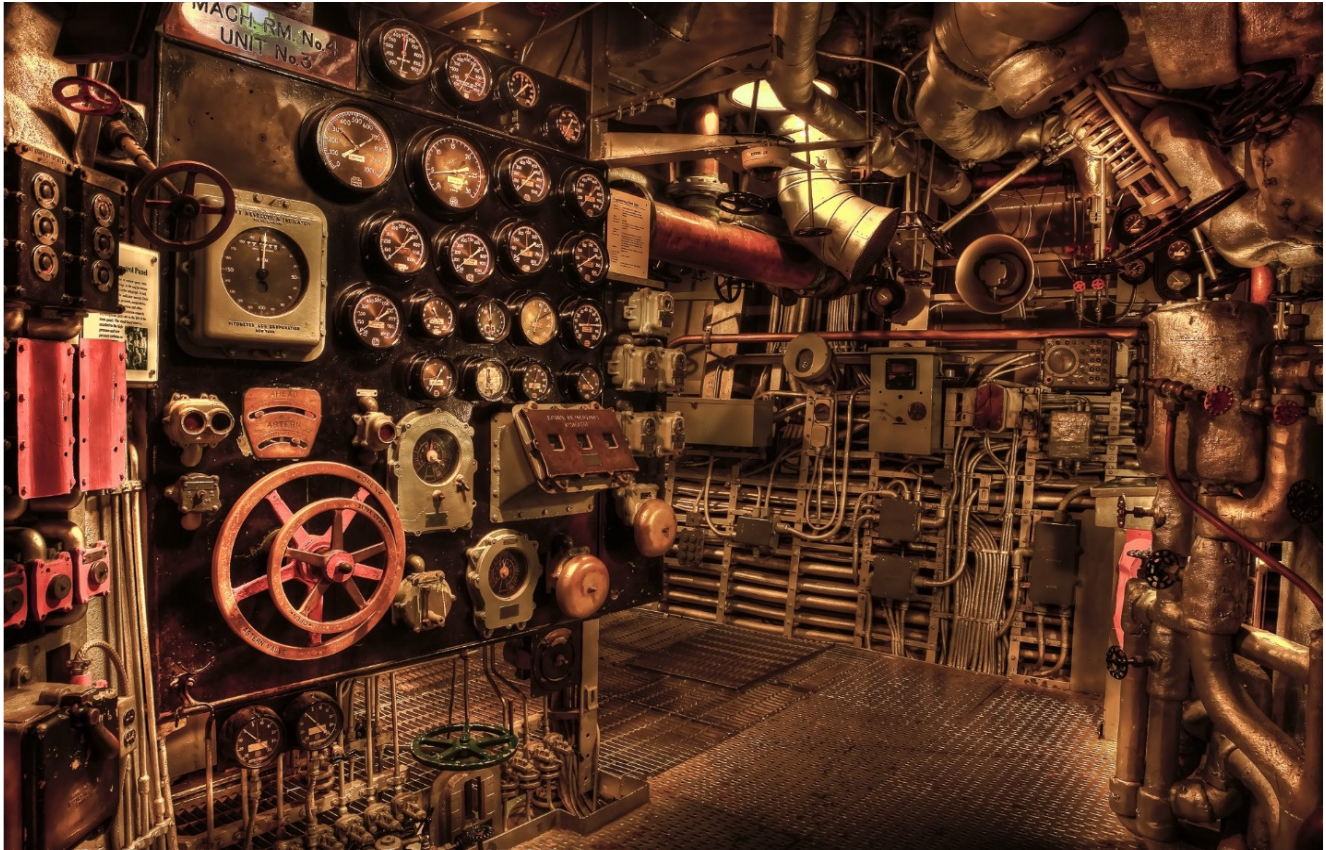

- **Compressor Racks**
- **Liquid Chillers**
- **Screw & Piston refrigeration compressors**
- **Custom designed refrigeration skids**
- **Evaporators ( Air Coolers)**
- **Condensers: Evaporative / Air Cooled / Water Cooled.**
- **Heat Exchangers**

## Our Services:

- Industrial Automation Engineering (PLC, SCADA...)
- Preliminary technical studies
- Comprehensive project design
- Digital control for temperature, humidity, etc.
- Refrigerant leak detection systems
- After sales technical support
- Spare parts for different types of refrigeration equipment
